ABOUT US

Tracing back to our family roots, Cristofoli International has always been synonymous with stone. Inspired by our Italian heritage, we are driven by a strong attention to detail to create innovative and beautiful stone solutions for a range of industries.

As specialists in the world of natural stone, we use our extensive knowledge in sourcing, designing, manufacturing and fitting to provide our clients with a high quality, friendly and professional service.

We offer bespoke stone solutions for kitchens, bathrooms and specialised interiors in both the residential and commercial markets.

Manufactured in our UK factory, we offer a range of materials such as porcelain, traditional stone and our specialist lightweight stone composite technologies.

MATERIAL SOURCING -

Both traditional and man-made stone, such as porcelain, come in an extensive range of materials and colours. We responsibly source materials from our trusted suppliers across the world in a wide variety of colours and finishes.

IN-HOUSE DESIGN SERVICE -

Combining your vision with our expertise and creativity, our in-house design team are on hand to offer technical advice and develop bespoke solutions to your specifications. We also offer assistance in material selection to ensure the optimum performance and finish.

UK MANUFACTURE & FABRICATION -

All our bespoke stonework is designed, created and finished at our UK factory, allowing quick turnaround and high-quality control.

Our skilled craftsmen integrate modern machinery with traditional skills giving us a unique specialist ability.

We can accommodate one-off or small-scale fabrications to larger commercial or residential projects.

01 WHAT WE DO

02 MATERIALS & LIGHTWEIGHT STONE

NATURAL STONE

Natural stone is quarried all around the world and there's a huge range of colour and material choices. The veining, grains and patterns are completely natural and bring a stunning texture to interiors. Choosing the best type of stone for it's application is something we can help you with to ensure it's not only beautiful but also fit for purpose.

PORCELAIN, SYNTHETIC & ENGINEERED STONE

Porcelain and other man-made stones are a popular alternative to natural stone due to their luxury appearance at a typically lower price point. There's a vast array of contemporary colour choices available and these materials are extremely hard-wearing with a strong resistance to moisture and stains.

'CRISTOCOMB' LIGHTWEIGHT STONE TECHNOLOGY

Developed for the external cladding industry, our industry-leading Cristocomb lightweight stone technology is extremely versatile and functional within the interiors market.

Utilising a unique bonding process, we combine a thin stone veneer onto a composite honeycomb panel. The result is a strong and lightweight panel perfect for bespoke fabrications, especially useful for marine and aerospace applications. This material can also be used for worktops and fabrications due to it's lightweight advantage during installation.

SHOWER TRAYS

Our made-to-measure stone shower trays give a contemporary appearance, allowing continuity of the material with the shower walls and bathroom floor. The flush-to-floor style is installed directly onto a standard shower former.

SHOWER NICHES & SHOWER WALLS

Custom-made to fit the bathroom dimensions, our pre-fabricated shower niches and shower walls are designed for quick and easy installation.

BATH SURROUNDS

Stone surrounds custom-made to fit the bath dimensions with a choice of edge profiling available.

VANITY UNITS

Whether you require a stone counter top for an existing vanity unit or a custom-made stone unit, we can work with you to create something unique.

LARGE FORMAT WALL CLADDING & FLOORING

Our large-format natural stone and porcelain slabs for flooring and wall cladding exude luxury. Installation is quick and easy with very few joints to finish.

03 BATHROOMS

Due to its incredible performance, durability and natural beauty, stone is the perfect choice for a long-lasting and easy-maintenance bathroom.

We offer a range of natural stone and porcelain bathroom solutions made to your bespoke requirements and specifications with extensive colour and material options.

04 KITCHENS

Stone is a timeless and elegant choice for kitchen surfaces, offering a unique blend of beauty, durability and functionality.

Natural stone, quartz and porcelain materials have exceptional durability and stand up to the high traffic use required in a kitchen.

WORKTOPS & SPLASHBACKS

We offer worktops in various thicknesses, finishes and materials, from 12mm porcelain to 20mm natural stone.

BESPOKE ISLANDS

We fabricate and build custom island units clad in stone for stunning kitchen centre-pieces. We can even achieve cantilevered overhang features.

PORCELAIN CLAD SINKS

To integrate seamlessly with the worktop, we fabricate porcelain clad sinks to achieve a luxury finish.

DINING TABLES

Stone dining tables to match the kitchen worktop finish and elevate the kitchen interior.

LARGE FORMAT WALL CLADDING & FLOORING

Our large-format natural stone and porcelain slabs for flooring and wall cladding exude luxury. Installation is quick and easy with very few joints to finish.

LARGE FORMAT WALL CLADDING & FLOORING

Our large-format natural stone and porcelain slabs are an excellent alternative to porcelain tiles for wall cladding and flooring. The large-format creates a higher quality appearance and installation is easier and cheaper with fewer joints to finish. We provide cut-to-size pieces that can be easily adapted on site if necessary.

INLAID DECORATIVE FLOORS

A natural stone floor is extremely hard-wearing and easy to maintain. We can work with you to integrate bespoke inlaid designs for a statement decorative feature.

CUSTOM FURNITURE

From bespoke shelving units, to sideboards and tables, we help you to realise your designs in stone.

05 INTERIORS

Our in-house design & manufacture capabilities allow us to push the boundaries of what's possible with stone and create some truly special interiors.

From stone flooring, to inlaid decorative floors and custom furniture, we can help you realise your designs with stone.

06 COMMERCIAL

We work extensively within the commercial industry providing a full design, manufacture and installation service for bespoke stone projects.

We personally tailor the design and material to meet your budget and requirements and our UK manufacture ensures quick delivery and turnaround time.
