MASTER ENSUITE

# YOUR DESIGN, OUR SOLUTION

## EXPERT MANUFACTURING

With over 40 years in natural stone, Cristofoli embodies expertise and quality. Our partnerships with material suppliers across the globe ensure we receive the highest quality natural stone for your needs.

Through using our own UK manufactured honeycomb panels, we are capable of producing a high-quality finished product. Any natural or composite stone can be bonded. Book matching and using an entire stone block ensures similar veining and colour throughout your project.

Our state of the art factory features the latest in stone machining substantially reducing our turnaround. Combined with our skilled craftsmen we are capable of producing elegant yet practical stonework. From cut to size flooring, to fully formed sinks we can manufacture to your specification and desired finish.

## KEY FACTS

- Minimal panel thickness of 9mm
- Slab size up to 3.0m x 1.5m
- Typical weight at 19 kg/m<sup>2</sup>
